

REMARKS/ARGUMENTS

Favorable reconsideration of this application is respectfully requested.

The present amendment is supplemental to the Amendment filed November 4, 2005, and is in response to the interview held with the Examiner on November 15, 2005. In that respect applicant and applicants' representative wish to thank the Examiner for the personal interview granted on November 15, 2005. During the interview the outstanding rejections were discussed in detail. Further, applicants' representative reiterated comments to the allowability of the claims over the applied art as presented in the Amendment filed November 4, 2005.

During the interview it was discussed that the independent claims could be clarified if amended to more explicitly indicate that the listed components form the structure parts list information, and the listed components include a plurality of parts. In view of that suggestion presented during the interview the present Supplemental Amendment is submitted.

In view of the present Supplemental Amendment, and the Amendment and remarks filed November 4, 2005, the claims as currently written are believed to overcome the current rejections.
